DETAILED ACTION

Allowable Subject Matter

The IDS of 5/14/2004 has been entered.

Claims 41-57 are allowed.

The following is an examiner's statement of reasons for allowance: The closest art known to the Examiner is cited on the attached PTO 892 form. None of the references or combinations thereof disclose or suggest exposing the silicon oxide to a plasma comprising an activated species; after introducing nitrogen, bonding at least some of the nitrogen to silicon within the nitrogen comprising region; and forming a layer of silicon nitride over the silicon oxide as required by the present claims. Therefore, the present claims are allowable over the cited prior art. Related case Serial No. 09/602,381, now US Patent No. 6,649,543 is merely cited to show the state of the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander G. Ghyka whose telephone number is (571)
